WEEKLY COMPILATION OF

PRESIDENTIAL DOCUMENTS

Published every Monday by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, the *Weekly Compilation of Presidential Documents* contains statements, messages, and other Presidential materials released by the White House during the preceding week.

The *Weekly Compilation of Presidential Documents* is published pursuant to the authority contained in the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (37 FR 23607; 1 CFR Part 10).

Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. The *Weekly Compilation of Presidential Documents* will be furnished by mail to subscribers for $15.00 per year ($15.00 additional for mailing first class; $8.50 additional for foreign handling), payable to the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. The charge for a single copy is 50 cents.

There are no restrictions on the republication of material appearing in the *Weekly Compilation of Presidential Documents.*

PRESIDENTIAL DOCUMENTS

Week Ending Monday, December 31, 1979

Windfall Profits Tax Legislation

Statement by the President. December 22, 1979

The House and Senate conferees have taken important steps toward reconciling their differences on the windfall profits tax. The basic agreement reached on revenue levels brings us closer to enactment of a windfall tax which will pay for vital investments in *American* alternatives to imported oil.

Progress on the tax has been painfully slow. First we were promised action by October, then by Thanksgiving, and then by Christmas. Although the Congress made progress before it adjourned, we still do not have a windfall profits tax in law.

When I announced my decision to phase out controls on domestic crude oil last April, I made clear that the windfall profits tax was an essential companion to decontrol. The schedule was carefully set to encourage American energy production and to give the Congress plenty of time to act on the tax. It is my present intention to continue the necessary general decontrol schedule, but I will postpone further increases in the price allowed for marginal wells until a windfall profits tax satisfactory to me is on my desk.

It must be clear that the costs of delay are high. I am determined that the American public will be protected with a windfall profits tax which is fair and which provides the funds we need to invest in our energy future.

The conference committee and their staff will continue work on the tax between now and the start of the new congressional session to ensure that precious time is not lost. It is also critical that the conferees on the energy mobilization board and the energy security corporation complete their work without further delay. We must not dissipate our opportunity for actions during this time of crisis. The eyes of the world are focused on us to see if we meet our energy challenges. What Congress does over the next few weeks will determine whether this country will meet its challenge.

We can and must send a strong and accurate signal that we, the American people, are determined to cut our dependence on imported oil. The windfall profits tax, the energy mobilization board, and the energy security corporation are critical to this effort, and we will not shirk our duty.

Pan American World Airways-National Airlines Merger

Letter to the Chairman of the Civil Aeronautics Board. December 22, 1979

To Chairman Marvin Cohen

I have reviewed the following orders proposed by the Civil Aeronautics Board:

Pan American Acquisition of, Control of, and Merger with National
Docket 33283

and

Texas International-National Acquisition Case
Docket 33112

I do not intend to disapprove the Board's orders within the 60 days allowed by statute.

In these orders, the Board approved the acquisition of National Airlines by Pan American World Airways. However, the Board deleted from the authority granted the merged airline the right now held by National, to provide service between Miami and London. Instead, the Board has initiated a separate proceeding to select a successor to National to operate the Miami-London route.

Under the Airline Deregulation Act of 1978, the President is given 60 days following a CAB decision such as this affecting international routes to review the decision. The President may disapprove a Board decision "solely upon the basis of foreign relations or national defense considerations . . . but not upon the basis of economic or carrier selection considerations."

Questions have been raised about that portion of the Board's decision deleting the Miami-London route from the transferred authority. I do not find sufficiently compelling foreign relations or national defense considerations to disturb the Board's decision on this issue or any other issue. I note that Pan American is one of several applicants for the Miami-London route in a proceeding now under consideration by the Board. I also note that the Board's opinion here underscores the right of the United States to assure any American carrier serving Miami-London complete competitive equality with any British carrier providing similar service, a right which must be assured in the final disposition of this matter.

To assure the opportunity for judicial review of the Board's action, I note that no foreign relations or national defense consideration underlies my action here.

Sincerely,

JIMMY CARTER

[The Honorable Marvin S. Cohen, Chairman, Civil Aeronautics Board, Washington, D.C. 20428]

United States Savings Bonds Program

Memorandum From the President. December 26, 1979

Memorandum for the Heads of Executive Departments and Agencies

The U.S. Savings Bonds Program has played an important role in sound debt management and in our continuing efforts to help control inflation. Over $80 billion in Savings Bonds are currently held by Americans.

In 1980, the Savings Bonds Program will assume an additional purpose. The new Series EE Savings Bonds, which will be introduced to payroll sales during the first six months of 1980, will be designated U.S. Energy Savings Bonds, Series EE.

While helping to finance the large Federal energy expenditure required in the coming years, U.S. Energy Savings Bonds will also help to focus the country's attention on the national goals of reducing energy consumption and increasing domestic supplies.

Series EE Savings Bonds not only offer increased benefits to the country as a whole but to each individual saver as well. The interest rate on these securities will

be increased from 6.5 percent to 7 percent for Bonds held for the full 11 years to maturity.

I believe it is appropriate for employees of the Federal Government to take the leadership responsibility in furthering the sale of U.S. Energy Savings Bonds. We must set the example for all Americans to follow.

Consequently, I have appointed Secretary of Defense Harold Brown to serve as Chairman of the Interagency Savings Bonds Committee.

The introduction this year of the U.S. Energy Savings Bonds, Series EE not only presents new challenges, but also new opportunities for close cooperation at all levels of government.

Secretary Brown and the members of the Committee have a special duty to ensure that all Departments and Agencies complete the transition to U.S. Energy Savings Bonds, Series EE smoothly and effectively, maintaining a high record of employee participation in the Savings Bonds Program.

Secretary Brown has my full support in undertaking this new responsibility. In turn, I want him to be able to count on your full support through your active personal involvement in this year's payroll savings campaign in your agency.

JIMMY CARTER

Budget Deferrals

Message to the Congress. December 26, 1979

To the Congress of the United States:

In accordance with the Impoundment Control Act of 1974, I herewith report three new deferrals totalling $28.7 million and three revisions to previously transmitted deferrals increasing the amount deferred by $34.5 million. These items affect programs in the Departments of Defense and Treasury, the National Consumer Cooperative Bank, the National Commission on Social Security, and the District of Columbia.

The details of the deferrals are contained in the attached reports.

JIMMY CARTER

The White House,
December 26, 1979.

NOTE: The attachments detailing the deferrals are printed in the FEDERAL REGISTER of December 31, 1979.

United States International Trade Commission

Designation of Catherine May Bedell as Chairman. December 26, 1979

The President today announced that he has designated Catherine May Bedell as Chairman of the United States International Trade Commission (USITC).

Bedell has been a member of USITC and its predecessor agency, the United States Tariff Commission, since 1971. She has previously served as Chairman. She is a former U.S. Representative from the State of Washington.

Iranians in the United States

White House Statement on a Court Decision Upholding the President's Authority To Investigate Student Visas. December 27, 1979

The decision by the Court of Appeals confirms the view that the administration has held all along—that the action taken in surveying Iranian students was both constitutional and lawful. The President is, of course, gratified by the decision. The

Attorney General has assured the President the program will continue to be carried out expeditiously in strict compliance with due process standards.

As of December 20, more than 45,000 of the nearly 55,000 students interviewed under the program were found to be in the country legally. Some 6,500 were found to be out of status, with the balance requiring a further check of documents.

Energy Emergency in Oregon

Memorandum From the President. December 27, 1979

Memorandum for the Administrator of the Environmental Protection Agency

Subject: Determination Under Section 110(f) of the Clean Air Act

Governor Atiyeh of the State of Oregon petitioned me on December 22, 1979, for a determination under Section 110(f) of the Clean Air Act that a regional energy emergency exists in Oregon of such severity that a temporary suspension of the federally promulgated new source construction and permitting prohibition under Section 110 and Part D of the Clean Air Act and appropriate provisions of Oregon's State Implementation Plan is necessary to help alleviate potentially high levels of unemployment caused by possible curtailments of electricity supply to the region. After considering the information and views provided to me by Governor Atiyeh, the Secretary of the Department of Energy, and the Administrator of EPA, I am hereby making the requested determination, subject to the conditions listed below:

(1) This determination applies only to the Harborton facility discussed in the Governor's petition.

(2) This determination expires on February 7, 1980. I will rescind this determination before that date if the potential energy shortage is substantially eased in the interim.

(3) Oregon's Department of Environmental Quality will monitor the air quality impact of operating the Harborton facility and will require the termination of its operation if air quality levels approach the primary ambient air quality standards. In no case would this declaration permit excesses of the health related primary ambient air quality standards.

(4) The Governor calls for a statewide electricity conservation effort. The State will submit to EPA and DOE biweekly reports on electricity consumption levels in the State, including the effects of its electricity conservation program. This determination is made in full recognition of Oregon's excellent record in the area of energy conservation.

(5) The operation of the Harborton facility will not result in a reduction in the electric energy output of other fossil fuel fired generating facilities in the State of Oregon.

(6) PGE will make maximum practicable effort to purchase available electric power from other regional utilities. State regulatory authorities will seek to remove regulatory impediments to power purchase by PRE and allow timely recovery of prudently incurred purchased power costs.

This determination shall be published in the FEDERAL REGISTER.

JIMMY CARTER

[Filed with the Office of the Federal Register, 8:56 a.m., December 31, 1979]

NOTE: The memorandum was released on December 28.

American Hostages in Iran and Soviet Intervention in Afghanistan

Remarks by the President. December 28, 1979

THE PRESIDENT. Secretary of State Vance will proceed to the United Nations tomorrow to press the world's case against Iran, in order to obtain the speediest possible release of American hostages, in accordance with the demands which have already been made earlier by the United Nations Security Council and the International Court of Justice.

The United States reserves the right to protect our citizens and our vital interests in whatever way we consider appropriate in keeping with principles of international law and the Charter of the United Nations. But our clear preference is now, and has been from the beginning of this crisis, for a quick and a peaceful solution of this problem through concerted international action.

We must never lose sight of our basic goals in this crisis—the safety of our fellow citizens and the protection of the long-term interests of the United States. A thoughtful and determined policy, which makes clear that Iran will continue to pay an increasingly higher price for the illegal detention of our people, is the best policy to achieve those goals, and it is the policy that I will continue to pursue.

Another serious development, which has caused increased concern about peace and stability in the same region of the world, is the recent Soviet military intervention in Afghanistan, which has now resulted in the overthrow of the established government and the execution of the President of that country. Such gross interference in the internal affairs of Afghanistan is in blatant violation of accepted international rules of behavior.

This is the third occasion since World War II that the Soviet Union has moved militarily to assert control over one of its neighbors, and this is the first such venture into a Muslim country by the Soviet Union since the Soviet occupation of Iranian Azerbaijan in the 1940's.

The Soviet action is a major matter of concern to the entire international community. Soviet efforts to justify this action on the basis of the United Nations Charter are a perversion of the United Nations that should be rejected immediately by all its members.

I have discussed this serious matter personally today with several other heads of government, all of whom agree that the Soviet action is a grave threat to peace. I will be sending the Deputy Secretary of State to Europe this weekend to meet with representatives of several other nations to discuss how the world community might respond to this unwarranted Soviet behavior. Soviet military action beyond its own borders gives rise to the most fundamental questions pertaining to international stability, and such close and extensive consultation between ourselves and with our allies are urgently needed.

Thank you very much.

REPORTER. Mr. President, do we have the votes in the U.N. Security Council, and do we have the Russians' promise they won't veto our resolution?

THE PRESIDENT. I expect we will see adequate support in the United Nations Security Council for our position.

Q. Have you gotten in touch with Brezhnev?

THE PRESIDENT. I have sent him a message.

NOTE: The President spoke at 4:30 p.m. to reporters assembled in the Briefing Room at the White House.

Endangered Species Act Amendments

Statement on Signing S. 1143 Into Law. December 28, 1979

I am very pleased today to sign into law S. 1143, a 3-year reauthorization of the Endangered Species Act. This act is one of the most far-reaching and progressive laws ever enacted by any nation to protect wildlife and plant resources. Reauthorization of the act has been one of my high legislative priorities.

In addition to reauthorization, the bill I am signing strengthens our endangered species protection program by including plant, as well as animal, species in the emergency listing and international cooperation provisions. The act also authorizes funds to the Department of Agriculture to enforce provisions related to plants.

The bill revises the procedures for implementing the Convention on International Trade in Endangered Species of Wild Fauna and Flora. The Congress has established a strong and independent International Convention Advisory Commission to advise the Secretary of the Interior on Scientific Authority responsibilities related to the convention. The scientific integrity of the convention will be preserved by the Commission's advice on the effects of trade, the listing of species on the convention appendices, and the interpretation and implementation of the convention.

I look forward to and will continue to support the implementation of a vigorous endangered species program.

NOTE: As enacted, S. 1143 is Public Law 96–159, approved December 28.

Financial Institutions Deregulation Legislation

Statement on Signing H.R. 4998 Into Law. December 28, 1979

I am deeply gratified by the passage of this legislation, which will help many Americans to obtain residential mortgage loans that would otherwise have been unavailable in many States. The administration has strongly supported a limited Federal preemption of State usury ceilings on mortgage loans, and the Congress approval of this provision will alleviate serious mortgage availability problems in the coming months in States with binding usury ceilings.

I am also pleased that the Congress has deferred the effective date of a court decision which would have prohibited depository institutions from offering share drafts, remote service, and automatic transfer accounts. These services have benefited millions of Americans, and we will work with the Congress to give institutions permanent legislative authority to offer these accounts.

Finally, I am pleased to note the extension of NOW account authority to federally chartered savings and loan institutions in New Jersey. Senator Williams and the New Jersey congressional delegation deserve credit for this provision, which will remove a serious competitive inequity. We will continue to seek nationwide NOW account authority.

I am hopeful that the bill I am signing today is only an interim step toward the passage of historic financial reform legislation early next year, legislation that would assure small savers a fair rate of return on their deposits, give our Nation's central bank the necessary tools to implement an effective noninflationary mone-

tary policy, provide broader powers for thrift institutions to compete in a modern financial environment, and remove obsolete regulatory constraints.

The administration will work actively to assure the phaseout of Regulation Q deposit rate ceilings and the passage of legislation to stem the decline in Federal Reserve membership. During a period of high inflation, it is simply unacceptable for the Federal Government to force small savers to accept a submarket rate of return on their deposits. Similarly, as Chairman Volcker and Secretary Miller have noted, the decline in Federal Reserve membership ultimately threatens the ability of our central bank to conduct monetary policy, and it is critically important to stem membership attrition on a fair and equitable basis.

The banking committees are to be commended for their progress toward this landmark legislation, which was outlined in my 1979 State of the Union message. We will work closely with the Congress to assure the enactment of comprehensive financial reform legislation.

NOTE: As enacted, H.R. 4998 is Public Law 96–161, approved December 28.

National Medal of Science

Announcement of Award to 20 Recipients. December 28, 1979

The President today announced the award of the National Medal of Science to 20 recipients. The Medal is the highest honor the Federal Government accords the Nation's scientists and engineers.

The recipients are:

ROBERT H. BURRIS, W. H. Peterson professor of biochemistry, University of Wisconsin, Madison, Wis.;

ELIZABETH C. BROSBY, professor of anatomy, University of Michigan, Ann Arbor, Mich.;

JOSEPH LEO DOOB, professor of mathematics, University of Illinois, Urbana, Ill.;

RICHARD PHILLIPS FEYNMAN, Richard Chase Tolman professor of physics, California Institute of Technology, Pasadena, Calif.;

DONALD E. KNUTH, professor of computer science, Stanford University, Stanford, Calif.;

ARTHUR KORNBERG, professor of biochemistry, Stanford University, Stanford, Calif.;

EMMETT NORMAN LEITH, professor of electrical engineering, University of Michigan, Ann Arbor, Mich.;

HERMAN F. MARK, professor of chemistry, Polytechnic Institute of New York, Brooklyn, N.Y.;

RAYMOND D. MINDLIN, James Kip Finch professor of applied science, Columbia University, New York, N.Y.;

ROBERT N. NOYCE, chairman, Intel Corp., Santa Clara, Calif.;

SEVERO OCHOA, Roche Institute of Molecular Biology, Nutley, N.J.;

EARL R. PARKER, professor of metallurgy, University of California, Berkeley, Calif.;

EDWARD MILLS PURCELL, professor of physics, Harvard University, Cambridge, Mass.;

SIMON RAMO, vice chairman of the board, TRW, Inc., Redondo Beach, Calif.;

JOHN H. SINFELT, scientific adviser, EXXON Corporate Research Laboratories, Linden, N.J.;

LYMAN SPITZER, JR., Charles A. Young professor of astronomy, Princeton University, Princeton, N.J.;

EARL REECE STADTMAN, chief, Laboratory of Biochemistry, National Health, Lung, and Blood Institute, National Institute of Health, Bethesda, Md.;

GEORGE LEDYARD STEBBINS, JR., professor of genetics, University of California, Davis, Calif.;

PAUL A. WEISS, Rockefeller University, New York, N.Y.;

VICTOR F. WEISSKOPF, Institute professor of physics, Massachusetts Institute of Technology, Cambridge, Mass.

The National Medal of Science was established in 1959 by the 86th Congress. It is presented to individuals who, in the judgment of the President, "are deserving of special recognition by reason of their outstanding contributions to knowledge in

the physical, biological, mathematical, or engineering sciences." To date, 133 Medals have been awarded, beginning in 1962. Each President beginning with Kennedy has awarded Medals. President Carter presented the most recent awards on November 22, 1977.

The presentation of the award to the 1979 recipients will occur in the near future.

Decontrol of Marginal Oil Wells

Executive Order 12187. December 29, 1979

By the authority vested in me as President by the Constitution and statutes of the United States of America, including the Emergency Petroleum Allocation Act of 1973, as amended (15 U.S.C. 751 *et seq.*), and notwithstanding the delegations to the Secretary of Energy in Executive Order No. 11790, as amended by Executive Order No. 12038, and in order to delay the decontrol of marginal oil wells, it is hereby ordered as follows:

1–101. For purposes of the pricing regulations adopted pursuant to the Emergency Petroleum Allocation Act of 1973, with respect to months commencing after December 31, 1979, the base production control level for marginal properties shall equal 20 percent of the total number of barrels of old crude oil produced and sold from the property concerned during calendar year 1978, divided by 365, multiplied by the number of days during the month in 1978 which corresponds to the month concerned.

1–102. For purposes of this Order, the term "marginal properties" has the same meaning as that term under the crude oil pricing regulations adopted pursuant to the Emergency Petroleum Allocation Act of 1973, as amended.

1–103. The Secretary of Energy may, pursuant to Executive Order No. 11790, as amended by Executive Order No. 12038, adopt such regulations as he deems necessary or appropriate to conform the crude oil pricing regulations to this Order.

JIMMY CARTER

The White House,
December 29, 1979.

[Filed with the Office of the Federal Register, 12:43 p.m., December 31, 1979]

NOTE: The Executive order was released on December 31.

Economic Compact Between New York and New Jersey

Statement on Signing H.R. 4943 Into Law. December 31, 1979

H.R. 4943 grants approval to the interstate compact between New York and New Jersey, providing for increased economic and industrial development in the New York City and northern New Jersey metropolitan region. While this bill is only a small part of the Port Authority's bold program, I take great personal pleasure in signing it.

Congressman Peter Rodino and the other Members of Congress from these two great States deserve considerable credit for expediting the passage of this legislation. I also extend my congratulations to Governors Carey and Byrne, Mayor Koch, and Alan Sagner and Peter Goldmark of the Port Authority of New York and New Jersey.

As I have emphasized throughout the past 3 years, the most effective remedy for the problems of our older urban centers—and of the Northeast in general—is to restore the private economic base of our inner cities. The steps taken in this direction by the Port Authority serve as a fine

example of what government can do to retain existing businesses and jobs and to attract new private-sector development and employment.

NOTE: As enacted, H.R. 4943 is Public Law 96–163, approved December 28.

Department of Energy National Security and Military Applications of Nuclear Energy Authorization Act of 1980

Statement on Signing S. 673 Into Law. December 31, 1979

I have signed S. 673, the Department of Energy National Security and Military Applications of Nuclear Energy Authorization Act of 1980.

In addition to authorizing appropriations in fiscal year 1980 for the Department of Energy's national security programs, S. 673 authorizes the creation of a facility to demonstrate the feasibility of storing certain nuclear wastes from defense activities. This project is known as the Waste Isolation Pilot Plant (WIPP), and its proposed location is in New Mexico. Specifically, the bill provides that:

"The Secretary of Energy shall proceed with the Waste Isolation Pilot Plant construction project. . . . Notwithstanding any other provision of law, the Waste Isolation Pilot Plant is authorized as a defense activity of the Department of Energy . . . for the express purpose of providing a research and development facility to demonstrate the safe disposal of radioactive wastes resulting from the defense activities and programs of the United States exempted from regulation by the Nuclear Regulatory Commission."

In signing S. 673, I am not endorsing this approach to the WIPP facility. As evidenced by the efforts of the Interagency Review Group on Nuclear Waste Management, which I established in March 1978, my administration is committed to the safe management of nuclear wastes. I have reviewed a number of alternatives for managing both defense and commercial wastes, and I believe that the future of WIPP ought to be resolved only in the context of an overall nuclear waste management policy. I will be making a comprehensive statement on the management of nuclear wastes in the near future.

NOTE: As enacted, S. 673 is Public Law 96–164, approved December 29.

Knoxville International Energy Exposition of 1982

Statement on Signing H.R. 5079 Into Law. December 31, 1979

I take great pleasure in signing H.R. 5079, which authorizes United States participation in Energy-Expo '82—the International Energy Exposition to be held in Knoxville, Tennessee, in 1982.

Energy-Expo '82 has the prospect of being critically important to the future of every nation, and perhaps of every individual, on Earth. With "Energy Turns the World" as its theme, the exposition will focus attention on one of the world's most pressing problems, and give participating nations an opportunity to demonstrate working prototypes of their newest energy-related inventions and developments as well as to discuss their energy policies in a variety of conferences.

The planning of this internationally significant event has been going on for several years. In April 1977, I granted it Federal recognition as being in the national interest; in December 1978, I in-

vited all the nations with which the United States has diplomatic relations to take part; and in August of this year I transmitted to Congress the proposal for United States participation which I now have the satisfaction of signing into law.

Knoxville, known as the Energy Capital of the World, is an appropriate site for Energy-Expo '82. It is surrounded by energy production—the Appalachian coalfields, Oak Ridge, the Tennessee Valley Authority—and it is the home of the University of Tennessee, with its diverse energy research facilities.

I look forward expectantly to Energy-Expo '82 and to the benefits it can bring to the people of this Nation and the world.

NOTE: As enacted, H.R. 5079 is Public Law 96-169, approved December 29.

Beef and Veal Imports Bill

Statement on Signing H.R. 2727 Into Law. December 31, 1979

I am pleased to sign into law today H.R. 2727, the Meat Import Act of 1979, a measure that will change the procedure we use to regulate imports of beef and veal into the United States.

Under the Meat Import Act of 1964, the Secretary of Agriculture had the authority to limit beef and veal imports. However, because the level of U.S. imports was tied to the level of U.S. production, the limitations were most restrictive when U.S. consumers most needed beef, and least restrictive when our cattle producers were suffering the most from low prices.

The new law makes much more sense. It provides that at least 1.25 billion pounds of imported beef will be available each year. That level increases when domestic production is low and more imports are needed. It better protects consumers against short supplies, and it better protects cattlemen against low prices. I believe it is a balanced measure which will provide needed stability and certainty for both the domestic cattle industry and the American consumer.

This bill has been a long time in development, and it is the result of cooperation and hard work by cattlemen, the Congress, and the administration.

It retains sufficient Presidential discretion in instances where the countercyclical formula does not fully protect the public interest. The bill is considerably less restrictive than last year's unacceptable measure. I especially want to thank Senators Talmadge and Bentsen and Congressmen Ullman, Foley, and Bedell for their diligence in developing this measure with the administration. It is a good and fair bill, and I am pleased to sign it into law.

NOTE: As enacted, H.R. 2727 is Public Law 96-177, approved December 31.

Foreign Military Sales Credits for Israel

White House Statement. December 31, 1979

The President met with Israeli Minister of Defense Ezer Weizman on December 28, 1979. Subsequently, the President has decided to request the Congress to increase by $200 million the foreign military sales (FMS) credits previously authorized for Israel in the special legislation in support of the peace treaty.

The decision was based on consideration of such factors as inflation and Israel's balance of payments deficit and takes into account the fact that the Israeli

Government has instituted since November extremely tough austerity measures designed to overcome these economic problems.

The decision, taken at a time when the President is determined to hold down Federal expenditures, reflects our sympathy and concern for Israel's security and well-being.

Presently, U.S. FMS credits for Israel total $2.2 billion, in addition to a grant of $800 million, to be disbursed over a period of approximately 3 years.

Digest of Other White House Announcements

The following listing includes the President's public schedule and other items of general interest announced by the White House Press Office and not included elsewhere in this issue.

December 27

The President announced the recess appointment of William A. Lubbers as General Counsel of the National Labor Relations Board. Lubbers was nominated for this position on November 28.

December 28

The President returned to the White House from Camp David, Md.

The President met at the White House with his foreign policy advisers to discuss the situation in Iran and other developments in that region.

The White House announced that due to the situation in Iran the President will not participate in the Democratic Presidential candidates debate in Des Moines, Iowa.

December 29

The President met at the White House with Dr. Brzezinski.

December 31

The President declared a major disaster for the State of Washington as a result of severe storms, high tides, mudslides, and flooding during the period December 13–23, which caused extensive property damage.

NOMINATIONS SUBMITTED TO THE SENATE

NOTE: The Senate having adjourned *sine die* on Friday, December 21, no nominations were submitted during the period covered by this issue. The second session of the 96th Congress will begin on Thursday, January 3, 1980.

CHECKLIST OF WHITE HOUSE PRESS RELEASES

NOTE: All releases of the White House Press Office have been included in this issue.

ACTS APPROVED BY THE PRESIDENT

Approved December 27, 1979

S. 716 ..... Public Law 96–156
An act to amend the Retired Federal Employees Health Benefits Act, as amended, with respect to the Government contribution toward subscription charge.

S. 241 ..... Public Law 96–157
Justice System Improvement Act of 1979.

H.R. 5645 ..... Public Law 96–158
An act to grant to the Little Sisters of the Poor all right, title, and interest of the United States in the land comprising certain alleys in the District of Columbia.

H.R. 887 ..... Private Law 96–30
An act for the relief of Elizabeth Berwick and Alexander Berwick, her husband.

H.R. 2531 ..... Private Law 96–31
An act for the relief of Russell W. Allen.

Approved December 28, 1979

S. 1143 ..... Public Law 96–159
An act to authorize appropriations to carry out the Endangered Species Act of 1973 during fiscal years 1980, 1981, and 1982, and for other purposes.

ACTS APPROVED—Continued

Approved December 28—Continued
